

# HZS25 Concrete batching plant

1. Competitive price and quality
2. Compact structure, reliable performance
3. Warranty: 12 Months
4. CE, ISO9001:2008 certificate

## Detailed Product Description

HZS25 concrete mixing plant is one of the small-sized plant series of HAOMEI company. It is semi-automatic concrete mixing block composed by feeding, batching, mixing, electrical control and steel structure components, suitable for small-scale construction projects, precast yard and commercial concrete companies.

## Main features

- Adopt combined structure and modular unit, convenient to install and remove;
- Mixing and aggregate lifting system adopt JS500 double-shaft compulsory concrete mixer which offers high quality and efficient mixing;
- Aggregate batching system adopts PLD800 concrete batcher which offers efficient and accurate measurement;
- Powder lot is electronic measured, highly accurate dosing;
- Water is flow-metering, simple and practical, highly accurate dosing.

## Technical parameter

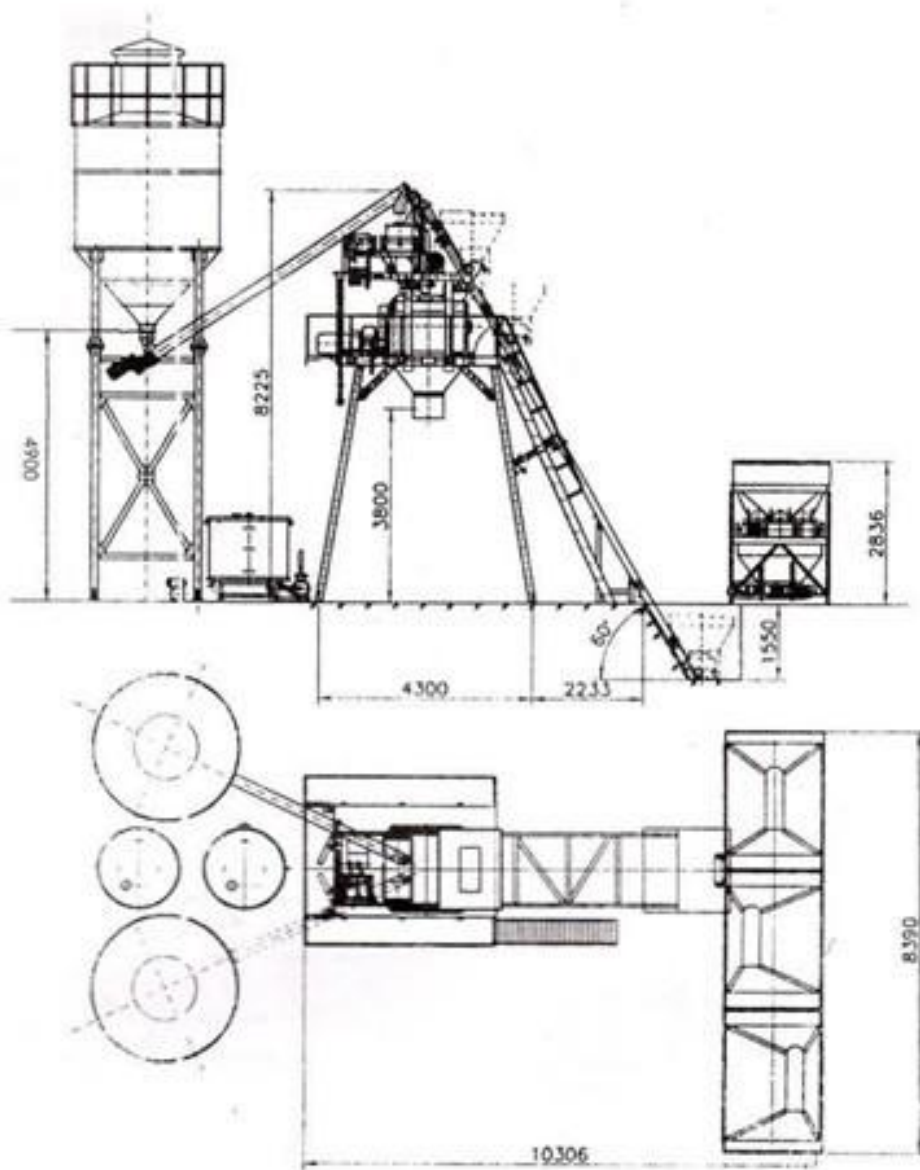

Item	Unit	Parameter
Max. Productivity	m <sup>3</sup> /h	25
Nominal capacity of mixer	m <sup>3</sup>	0.5
Max Weighing Value of aggregate	kg	1500
Max Weighing Value of cement	kg	300
Max Weighing Value of water	kg	150
Max Weighing Value of additive	kg	40
Rating transport capacity of screw conveyor	t/h	35
Capacity of Cement Cabin	t	50
Mixing Power	kW	18.5
Hoist Power	kW	5.5
Power of Machine	kW	60
Weight of Machine	t	25
Outline Dimension(LxWxH)	m	15x8x14
Discharge Height	m	3.8
Aggregate measuring accuracy	%	≤2
Water measuring accuracy	%	≤1
Cement measuring accuracy	%	≤1

Additive measuring accuracy	%	≤1
-----------------------------	---	----

**Please note:**

1. The total power doesn't include the power of cement screw;
2. Non-standard design could be made according to clients' demand;
3. The above-mentioned data could be changed due to the designing improvement, please check the updated configuration when purchasing.
